

SAHANA NAIK

DATA ANALYST | PYTHON | SQL | GENERATIVE AI | MACHINE LEARNING

Bengaluru, India | 7204964945 | sahananaik1704@gmail.com | linkedin.com/in/sahana-naik-ml | github.com/sahana769

PROFESSIONAL SUMMARY

Analytical MCA graduate with hands-on experience in Python, SQL, machine learning, data analysis, and Generative AI applications. Built projects in RAG, embeddings, NLP, classification, regression, and Streamlit-based deployment. Skilled in data cleaning, exploratory data analysis, feature engineering, model evaluation, and business reporting. Strong problem-solving and communication skills with the ability to work across technical and non-technical stakeholders.

TECHNICAL SKILLS

Programming	Python, SQL, Pandas, NumPy
Data Analysis	Data Cleaning, Exploratory Data Analysis, Statistical Analysis, Data Validation, Business Insights, Data Mining
Machine Learning	Regression, Classification, Feature Engineering, Model Evaluation, Scikit-Learn, XGBoost, Random Forest
AI & NLP	Generative AI, NLP, Deep Learning, RAG, LLM Concepts
Tools & Deployment	Streamlit, Jupyter Notebook, Git, GitHub
Cloud & Data Eng.	AWS S3, AWS Glue, AWS Athena, AWS Lambda, Amazon Redshift, Azure Fundamentals
Visualization & BI	Tableau, Excel, Matplotlib, Seaborn
Other	Linux, Agile Methodology

PROFESSIONAL EXPERIENCE

DATA ANALYST INTERN

Nov 2024 – Feb 2025

Seventh Sense Talent Solutions, Bengaluru, India

- Analyzed and cleaned over 200,000 records using SQL, Python, and Excel to improve data quality and reporting accuracy.
- Performed data extraction, validation, cleansing, and transformation for analytical reporting.
- Conducted exploratory data analysis and statistical analysis to identify trends, patterns, and customer behavior insights.
- Developed interactive dashboards and performance reports using Tableau and Python to support KPI tracking and decision-making.
- Collaborated with cross-functional teams on reporting, data quality management, and business intelligence solutions.
- Performed data validation, reporting support, and quality checks to ensure reliable business insights.
- Worked in an Agile environment to support iterative analytics tasks and continuous process improvement.

PROJECTS

AI RESUME ANALYZER USING RAG AND STREAMLIT

- Built a Generative AI-powered resume analyzer that extracts text from PDF resumes and evaluates job relevance.
- Used NLP and embedding-based retrieval to compare resume content with job descriptions.
- Implemented RAG to generate skill-matching feedback, keyword gaps, and improvement suggestions.
- Developed an interactive Streamlit web application for real-time resume review and scoring.
- Improved resume screening workflow by combining retrieval, prompt engineering, and AI-generated recommendations.

Tools: Python, Streamlit, LangChain, Hugging Face, FAISS/ChromaDB, PyPDF2, Azure OpenAI or Gemini

CUSTOMER CHURN PREDICTION USING MACHINE LEARNING

- Built a churn prediction model using Python and Scikit-Learn to identify customers likely to discontinue services.
- Performed data cleaning, exploratory data analysis, and feature engineering to prepare the dataset.
- Trained and compared multiple classification models to improve prediction accuracy and identify the best-performing algorithm.
- Evaluated performance using Accuracy, Precision, Recall, F1-Score, and confusion matrix metrics.
- Deployed the final solution as an interactive Streamlit application for real-time churn prediction.

Tools: Python, Pandas, NumPy, Scikit-Learn, Streamlit, Matplotlib, Seaborn

CORPORATE REVENUE FORECASTING USING MACHINE LEARNING

- Developed predictive models using Linear Regression, Random Forest, and XGBoost to forecast revenue trends.
- Performed feature engineering, exploratory data analysis, and PCA to identify key revenue drivers and performance indicators.
- Improved forecasting workflow efficiency through model evaluation and automation.

Tools: Python, Pandas, NumPy, Scikit-Learn, XGBoost, PCA

EDUCATION

Master of Computer Applications (MCA)

AMC Engineering College, Bengaluru

CGPA: 9.2/10

Bachelor of Computer Applications (BCA)

Govt. First Grade College, Honavar

CGPA: 8.11/10

CERTIFICATIONS

- Data Science with Generative AI Program — Great Learning.
- Azure Fundamentals — Simplilearn SkillUp.
- Gemini for Google Workspace — Simplilearn SkillUp.
